The University Grant Commission sanctioned me a minor research project entitled, **“A Geographical Study of Desert Villages in Jalgaon District”** with grant of Rs. 1, 40,000/- The research project was started since 31st Dec. 2010. In the first year of the project work I had visited to study area and collected information from primary and secondary sources. For the fruitful research I had purchased important books and journals and also took the immense help of Internet.

In the second year I had gone through number of online research paper and took printout of these papers for reference study. For the micro level study I visited various villages and got information through questionnaire. I had computed the information of deserted villages of study area.

The important aspect of this project is that I had guided two batches of the students for ‘Avishkar 2010, 2011 and 2012’. I am also published thirteen research paper in International Level Multidisciplinary Journal. The research papers are as follows.
