REPORT ON SCIBOON PROGRAM ORGANIZED BY SCIENCE ASSOCIATION IN COLLABORATION WITH IQAC OF NYNC COLLEGE

Date: February 28th, 2023

Event: SCIBOON Program on Science Day

Organizers: Science Association in Collaboration with IQAC (Internal Quality Assurance Cell) of NYNC College

Introduction: The Science Association, in collaboration with the Internal Quality Assurance Cell (IQAC) of NYNC College, organized a remarkable event named SCIBOON Program on the occasion of Science Day, celebrated on February 28th, 2023. This program aimed to foster scientific curiosity, encourage innovation, and celebrate the spirit of scientific inquiry among students.

Participants: A total of 220 participants, including students and faculty members, actively engaged in the SCIBOON Program. The diverse participation underscored the inclusive nature of the event, welcoming individuals from various academic backgrounds and levels of expertise.

Highlights: The SCIBOON Program featured a variety of activities designed to showcase and celebrate scientific achievements and advancements. One of the key highlights of the event was the poster presentation session by undergraduate (UG) students. This segment provided a platform for young researchers to present their findings, share insights, and interact with peers and mentors.

Poster Presentation by UG Students: The poster presentation session by undergraduate students was a focal point of the SCIBOON Program. Participants enthusiastically showcased their research projects, spanning across diverse scientific disciplines. Each poster offered a visual representation of the research topic, accompanied by concise explanations and interactive discussions.

The presentations encompassed a wide range of topics, including but not limited to:

- Biological Sciences
- Physical Sciences
- Environmental Sciences
- Computer Science
- Mathematics

The UG students demonstrated exceptional creativity, critical thinking, and depth of understanding in their respective fields. Their presentations not only reflected their academic prowess but also highlighted their ability to address real-world challenges through scientific inquiry and innovation.

Impact and Conclusion: The SCIBOON Program served as a catalyst for promoting scientific awareness, fostering interdisciplinary collaboration, and nurturing the next generation of scientists and innovators. By providing a platform for UG students to showcase their research, the event encouraged academic excellence, inspired curiosity, and instilled a passion for scientific exploration.

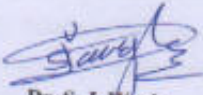

In conclusion, the collaboration between the Science Association and IQAC of NYNC College resulted in a successful and enriching SCIBOON Program. The event not only celebrated the significance of Science Day but also reaffirmed the college's commitment to nurturing a culture of scientific inquiry and excellence.

Acknowledgments: The organizers express their gratitude to all participants, faculty members, and staff whose contributions and support were instrumental in making the SCIBOON Program a resounding success.

Future Endeavors: Looking ahead, the Science Association and IQAC remain dedicated to organizing similar initiatives and fostering a vibrant scientific community within NYNC College. Through continued collaboration and engagement, they aim to empower students, promote innovation, and advance the frontiers of scientific knowledge.

This report encapsulates the essence and outcomes of the SCIBOON Program, underscoring its significance in promoting scientific excellence and fostering a culture of inquiry and innovation within the academic community.
