**Training Program: Online Learning: LIVE Classroom Teaching Platforms**

The Covid-19 pandemic has taken the world by storm; there is not a single field of the modern world which was not impacted by this pandemic. This pandemic would be recorded as the worst event of 21st century. Covid-19 has changed the entire world and our perceptions about life and functioning of the formal world. It is rewriting the definitions and operational protocols across all fields. Paradigm shifts are inevitable for existence. Education is no exception to this change. Considering the challenges of Trurban (tribal-rural-urban) ecology of our university, it is necessary to transform the existing model of Teaching-Learning process to next level by making it more flexible, maximally independent and knowledge enriching experiential for the students of Trurban demography.
